Naif is on his path...

VICTORIA & ALBERT
MUSEUM
HENRY COLE WING

Ever since I was a kid I've liked the UK. It's such a nice place to live and it's a great environment for studying too — that's why I decided to study a pathway course with Kaplan that would help me get into City, University of London.

It was easy to make friends here as everyone is so open. Kaplan International College London has good extra-curricular activities: we play sports on Wednesdays and sometimes there are movie nights. It's really nice!

I really enjoy my classes at the College too — my teachers are friendly and they have a very good sense of humour.

I think studying abroad helps you open your mind, and provides you with a better understanding of other cultures.

I know I'll look back at these moments as some of my most valuable, for sure.

Naif from Saudi Arabia
On his path to a City, University of London degree

... where will your path take you?

What is a pathway course?

If you don't meet the requirements to enter a degree abroad directly, Kaplan can help. These 5 steps show your path to university with Kaplan. It's easier than you might think!

1.

Decide to study abroad

Once you've completed your current high school or university studies, we can help you gain access to an undergraduate or postgraduate degree at a great university abroad.

2.

Choose your course and apply

If you don't meet the academic and / or English language entry requirements for a degree, you can get there by studying a pathway course first. You're guaranteed entry to your chosen degree if you pass your pathway course at the required level, and with good attendance.

3.

Study your pathway course in your destination country

You'll improve your academic skills and English language level, and learn more about the local culture. Your course is often taught on campus at the university you applied to.

4.

Progress to your university degree

Once you've met the progression requirements for your pathway course, you'll enrol on your chosen bachelor's or master's degree at university, feeling fully prepared and settled into your new country.

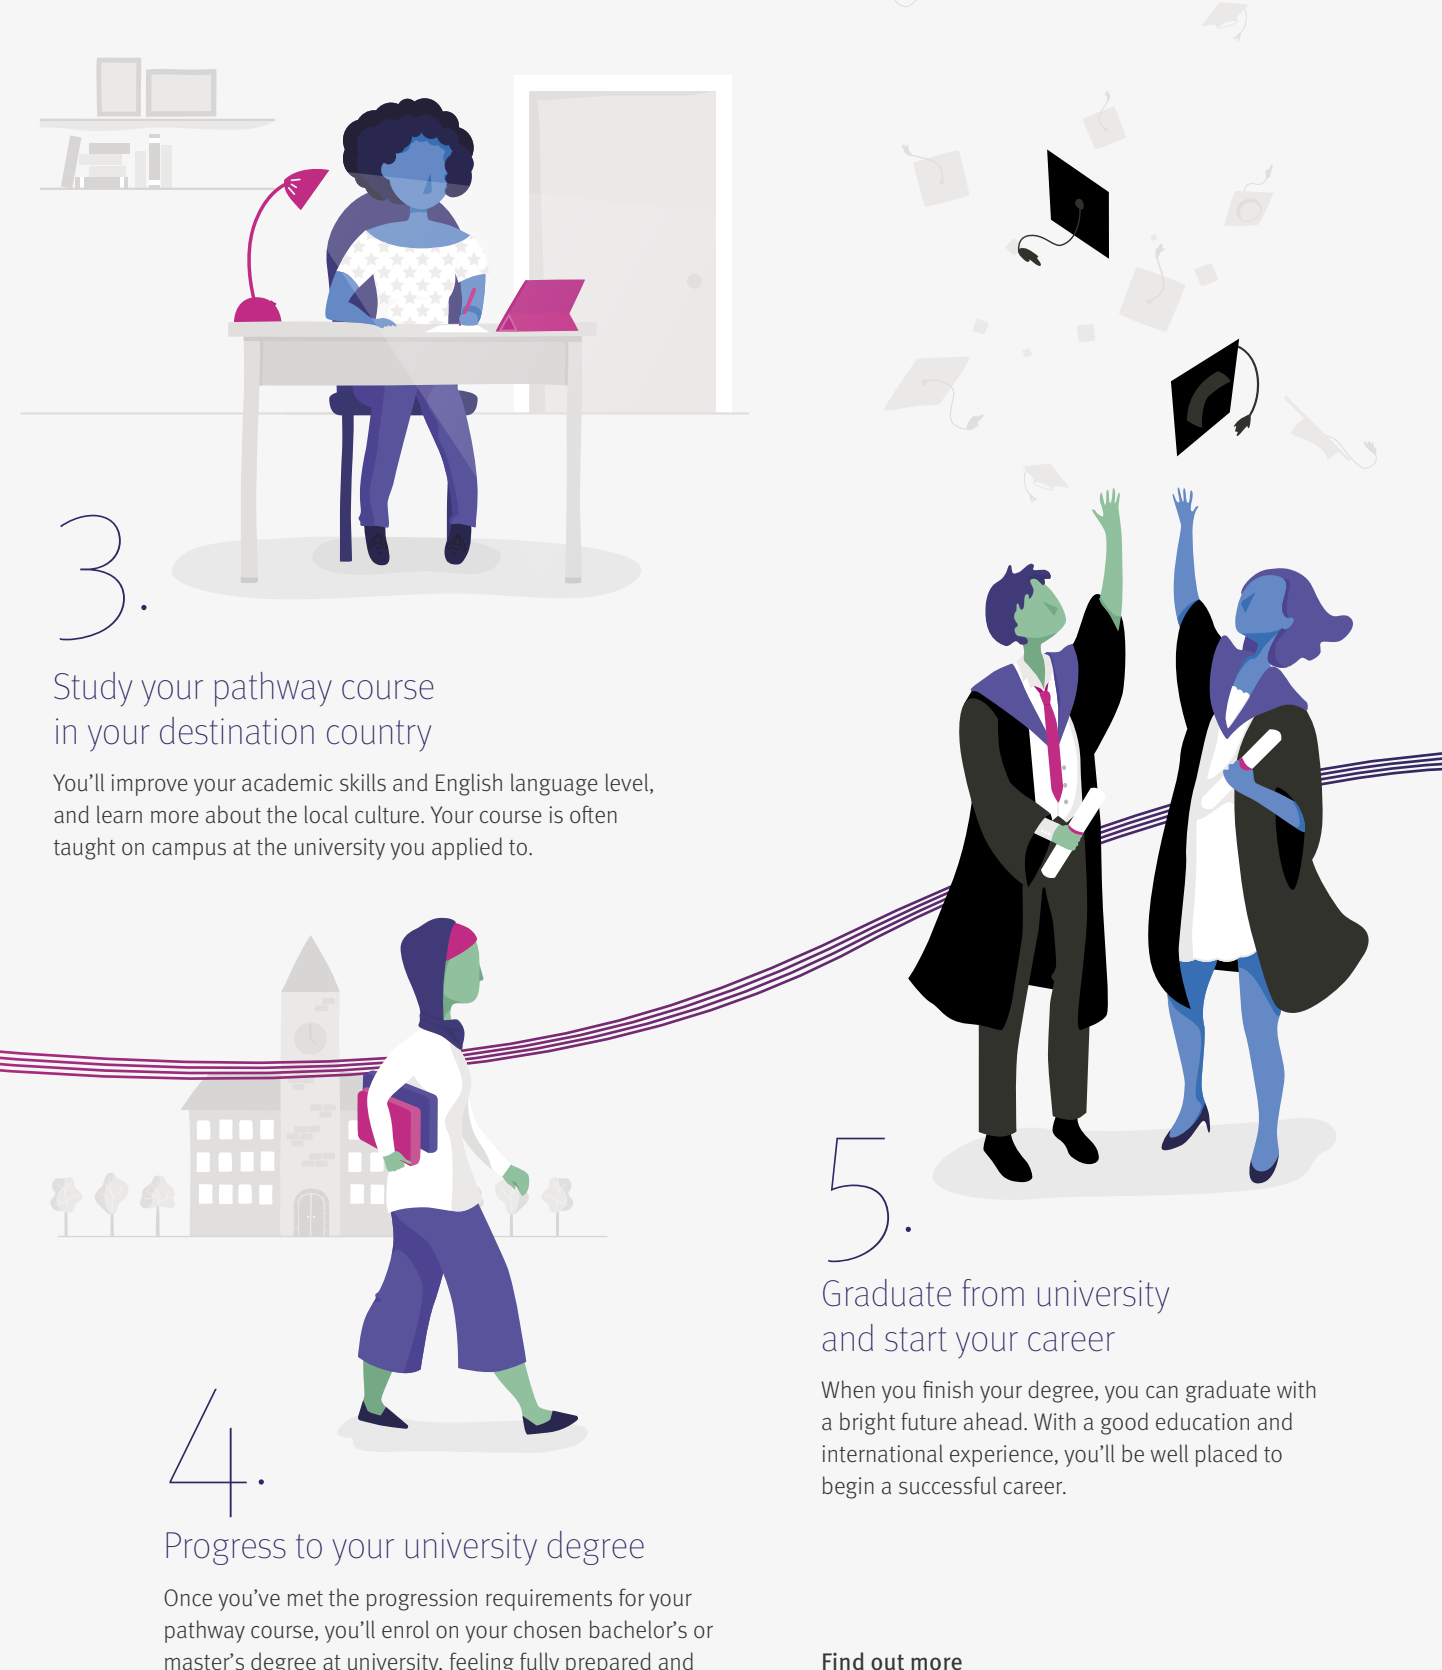

5.

Graduate from university and start your career

When you finish your degree, you can graduate with a bright future ahead. With a good education and international experience, you'll be well placed to begin a successful career.

Kitkat from Thailand
On her path to success

Why study a pathway course?

A pathway course is the perfect way to make sure you can study the degree you want. You'll start university fully prepared for the challenges ahead.

Benefits of taking a pathway course

Taking a pathway course will really help your education and career prospects. It can enable you to get into a better university, so you'll end up with a more impressive degree after you graduate. It will give you all the skills and knowledge you need to be prepared for university study, and for life in another country. A big part of this is the chance to make lifelong friendships with people from all over the world. Pathway courses are available for bachelor's and master's degrees; whatever level you're studying at, it's good to be prepared!

Our guarantee

When you study a pathway course with Kaplan, you are guaranteed entry to your university degree when you pass at the required level, with good attendance.

What can I study?

When you study with Kaplan, you can do things your way. You'll have a huge range of degrees and subjects to choose from, with options for both pathway courses and direct admission.

Routes to bachelor's degrees

We offer you a wide range of pathway courses that lead to undergraduate degrees. There are also options for students who qualify to enrol directly onto a degree, or who wish to complete a degree they've already started at a different university and transfer existing credits.

Undergraduate pathways in the UK, USA and Australia include the Foundation Certificate (typically leading to the 1st year of a bachelor's degree), and International Year One (leading to the 2nd year of a bachelor's degree).

Routes to master's degrees

There are a number of ways you can enrol on a master's degree with Kaplan, including through a pathway course, typically taken on the campus of the university you'd like to study at. As well as pathway courses, there are options for direct admission to a master's degree if you qualify.

Postgraduate pathways – or simply graduate pathways in the USA – will allow you to take your higher education one step further. Available courses include a Pre-Master's, which can help you progress to a master's degree.

Where can my path take me?

Getting a university education is just the beginning. A good degree will open up all kinds of opportunities for you, and will help you begin an exciting, successful career.

Work experience

An internship or work experience placement is a brilliant way to gain practical knowledge of your subject, and can help you stand out when looking for a job. That's exactly what Rebecca and Jecky (both pictured right) did on their path to a degree. Many degrees at our partner universities offer opportunities to gain real-world experience and learn more about different roles, so you can find the right path for you.

Potential careers

As a student at one of our partner universities, you'll be following a life-changing path taken by thousands of successful graduates. These talented people go on to have great careers and achieve fantastic things, often at famous global companies. Take a look below at just some of the well-known employers who have hired graduates from our university partners, and see where your path could take you.

Employers hiring graduates include:

Arts and media

- BBC
- Boston Symphony Orchestra
- Sky Sports

Finance

Study options in the UK

You have a huge range of pathway options for studying in the UK. We'll help you get a great education, your way.

Pathway courses

With Kaplan, you have 3 main types of pathway course available in the UK.

Foundation Certificate (FC)

Qualify for entry to year 1 of an undergraduate / bachelor's degree.*

Entry requirements: typically, successful completion of high school, and between IELTS 4.0 and 5.5.

Course length: usually 6 to 15 months

International Year One (IYO)

Qualify for entry to year 2 of an undergraduate / bachelor's degree.

Entry requirements: typically, successful completion of high school with good grades, and between IELTS 4.0 and 5.5.

Course length: usually 7 to 15 months

Pre-Master's (PM)

Qualify for entry to a postgraduate / master's degree.

Entry requirements: typically, at least 3 years of higher education or equivalent, and between IELTS 4.5 and 6.0.

Course length: usually 5 to 15 months

Study costs

Pathway course tuition fees are typically between £13,030 and £33,300, depending on which course you take. You'll also need to consider other costs like your university tuition fees, general living costs, accommodation, course learning materials and student insurance cover.

More information about costs and how to apply:

Study at a traditional red brick university on a beautiful campus

University of Birmingham

Russell Group • Red brick • Campus university • Metropolitan destination

› kaplanpathways.com/university-of-birmingham

Diverse community

At the University of Birmingham, you'll enjoy life on a global campus and meet people from around the world. There are 5,000+ international students who come from more than 150 countries, and over 30% of academic staff are from overseas. Studying at Birmingham is therefore a great opportunity for you to become part of a worldwide network of talented graduates.

Fantastic facilities

As a student at the University of Birmingham, you will benefit from the excellent facilities on its stunning 250-acre campus. These include one of the UK's largest academic libraries and a new £55 million sports centre. Between 2016 and 2026, the University is investing more than £600 million in buildings, laboratories, equipment and resources.

"I really enjoyed the rich student culture as well as the opportunities Birmingham gave me to improve my social circle!"

Don from Singapore
master's degree in Chemical and Energy Engineering

Benefit from current investment in facilities

Take advantage of the new Sport & Fitness centre

Green surroundings

As the UK's 'second city', Birmingham is a great destination for students. It's a lively, multicultural place where you can enjoy a wide range of cuisines, a wonderful arts scene and fantastic sports. The city also has more trees than any other equivalent-sized European city, so you can relax in its many green spaces!

University of Essex

Campus university • International partnerships • Historic destination • Internships

› kaplanpathways.com/university-of-essex

Innovative spirit

At Essex, you'll be encouraged to think independently and question convention. You will learn how to think creatively, and how to apply your knowledge and ideas to real-life situations. You'll also benefit from the University's partnerships with over 300 institutions all over the world, and the chance to do a paid internship either during your degree or within 3 years of graduating.

Everything you need

The University's Colchester-based campus is well equipped to support your studies. You will have access to a 6-floor library, IT suites and even a cinema! Other great on-campus amenities include a sports centre, hair salon, shops and restaurants. The campus is set around a tranquil lake and has lots of resident wildlife, so you can study in a beautiful natural environment.

Find everything you need on campus

Study in impressive modern buildings

Historic county

Colchester is located in the county of Essex, which is home to an incredible coastline and many historic villages. There's lots for you to explore here, and it is just a short train ride from London. This makes it great for students because you can enjoy being near the capital, but with a lower cost of living.

"Colchester is the oldest recorded town in the UK, so there's lots of history. I like to go to the high street because there are many different shops and restaurants from all over the world."

University of Glasgow

Ancient university • Metropolitan destination • Campus university • Russell Group

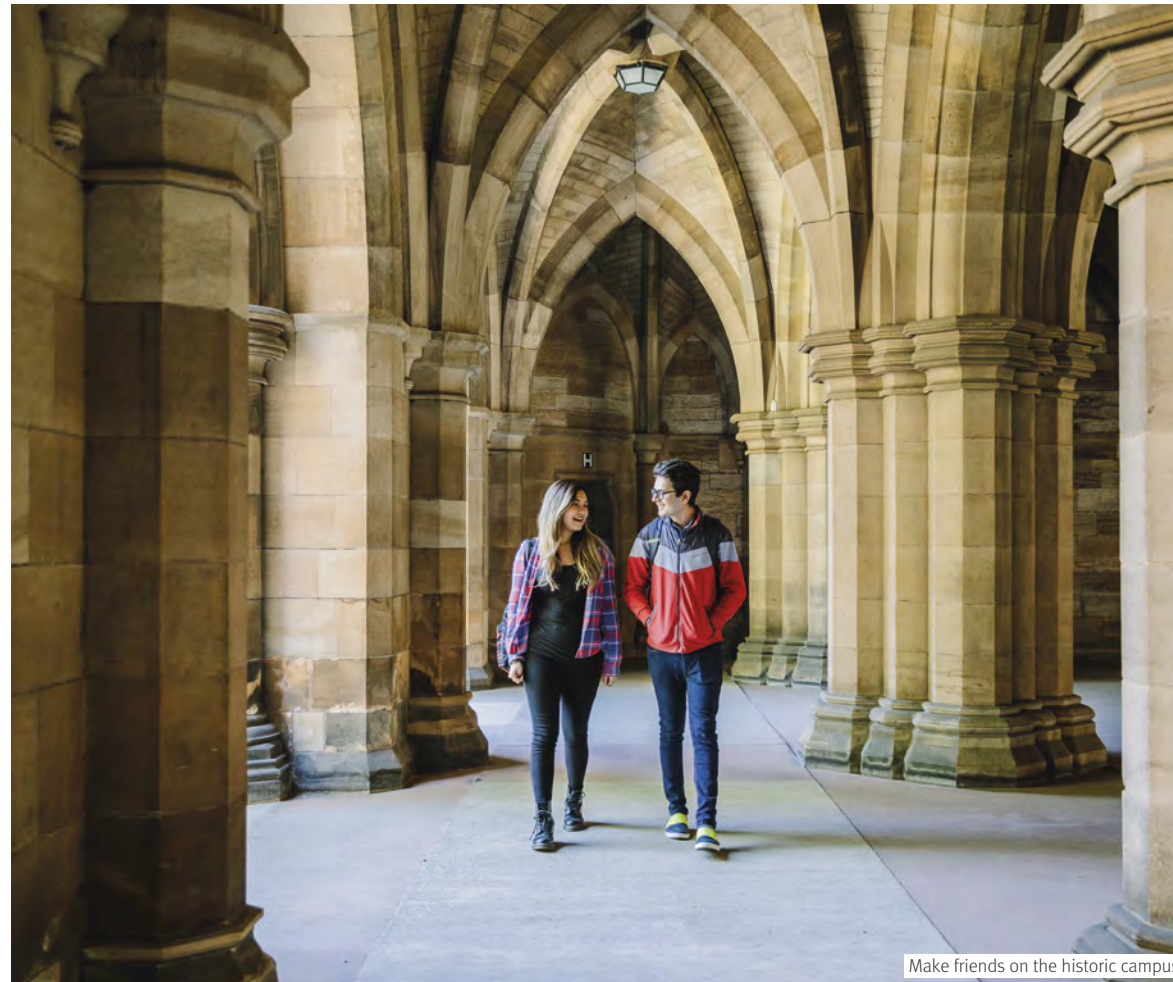

› kaplanpathways.com/university-of-glasgow

Impressive history

The University of Glasgow is one of Scotland's 4 "ancient universities" — founded in 1451, it has been producing brilliant graduates for over 500 years! The tradition continues today, with students coming from more than 140 different countries to study at this prestigious and impressive Scottish university.

Incredible campus

With stunning Gothic buildings and beautiful grounds, the University of Glasgow's campus features amazing scenery. But it also contains all the state-of-the-art facilities and modern resources you need to succeed on your degree, including a 12-floor library with over 2.5 million books and journals.

Make friends on the historic campus

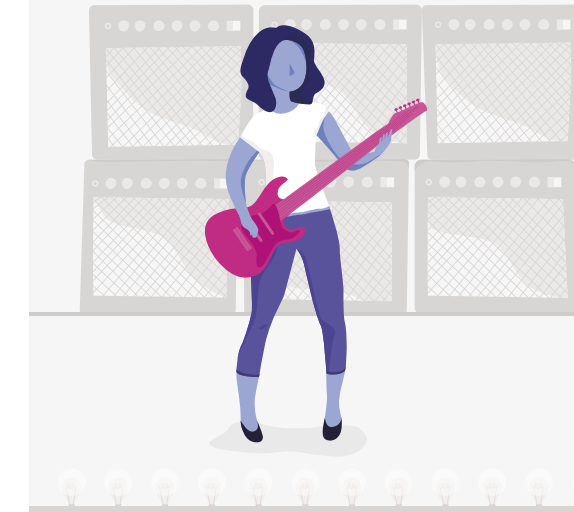

"Studying in Glasgow was truly an incredible and memorable time for me — I will definitely miss it, but I'm sure I'll be back!"

Cici from China
bachelor's degree in Economics

Scottish culture

As Scotland's largest city, Glasgow has a lot going on, from food and drink festivals to music at the Summer Nights at the Bandstand festival. You can enjoy the Kelvingrove art gallery, as well as museums, cafés and restaurants. The music scene in Glasgow is also particularly vibrant, with an average of 100 live music events per week!

Study options in the USA

With so many routes to a US university degree, we'll help you find your best path to an incredible education.

Direct admission

If you meet all entry requirements, we can help you gain admission directly to a degree at one of our US university partners.

Bachelor's degree year 1 (B)

Go straight into the first year of an undergraduate program.

Entry requirements: completion of high school with minimum GPA 2.5, and at least TOEFL 61 or equivalent*

Degree length: typically 4 years

Undergraduate transfer (T)

Join year 2 or 3 of a bachelor's and complete your degree in the USA.

Entry requirements: 24+ undergraduate credits with minimum GPA 2.5, and at least TOEFL 61 or equivalent*

Degree length: typically 2–3 years

Master's degree admission (M)

Go straight into the start of a master's program.

Entry requirements: bachelor's degree or equivalent with minimum GPA 3.0, and at least TOEFL 78 or equivalent*

Degree length: typically 1–2 years

Pathway programs

There are 2 main types of pathway program available in the USA.

Undergraduate pathway (UP)

Qualify for entry to year 1 or year 2 of a bachelor's degree. Start earning transferable credit with an academic pathway.

Entry requirements: successful completion of high school with minimum 2.0 GPA, and at least TOEFL 55 or equivalent*

Program length: between 4 and 12 months

Graduate pathway (GP)

Qualify for entry to a master's degree. Start earning transferable credit with an academic pathway.

Entry requirements: bachelor's degree or equivalent with minimum 3.0 GPA, and at least TOEFL 55 or equivalent*

Program length: between 2.5 and 12 months

Study costs†

To apply for a US study visa, you must show that you have funding available for at least 1 year at university, including tuition, fees and all living expenses. At undergraduate level, this total cost of attendance ranges from \$29,500 to \$69,000 per year; at graduate level, from \$38,000 to \$70,000 per year, depending on your choice of university and program.

Find out more about costs and how to apply:

Accelerated undergraduate pathway (AUP)

Qualify for entry to year 2 of a bachelor's degree.

Entry requirements: typically, successful completion of high school or equivalent, and between IELTS 5.5 and 6.0 or equivalent

Course length: usually between 9 and 15 months

Postgraduate pathway (PP)

Qualify for entry to a master's degree.

Entry requirements: typically, successful completion of a bachelor's degree or equivalent, and between IELTS 5.5 and 6.0 or equivalent

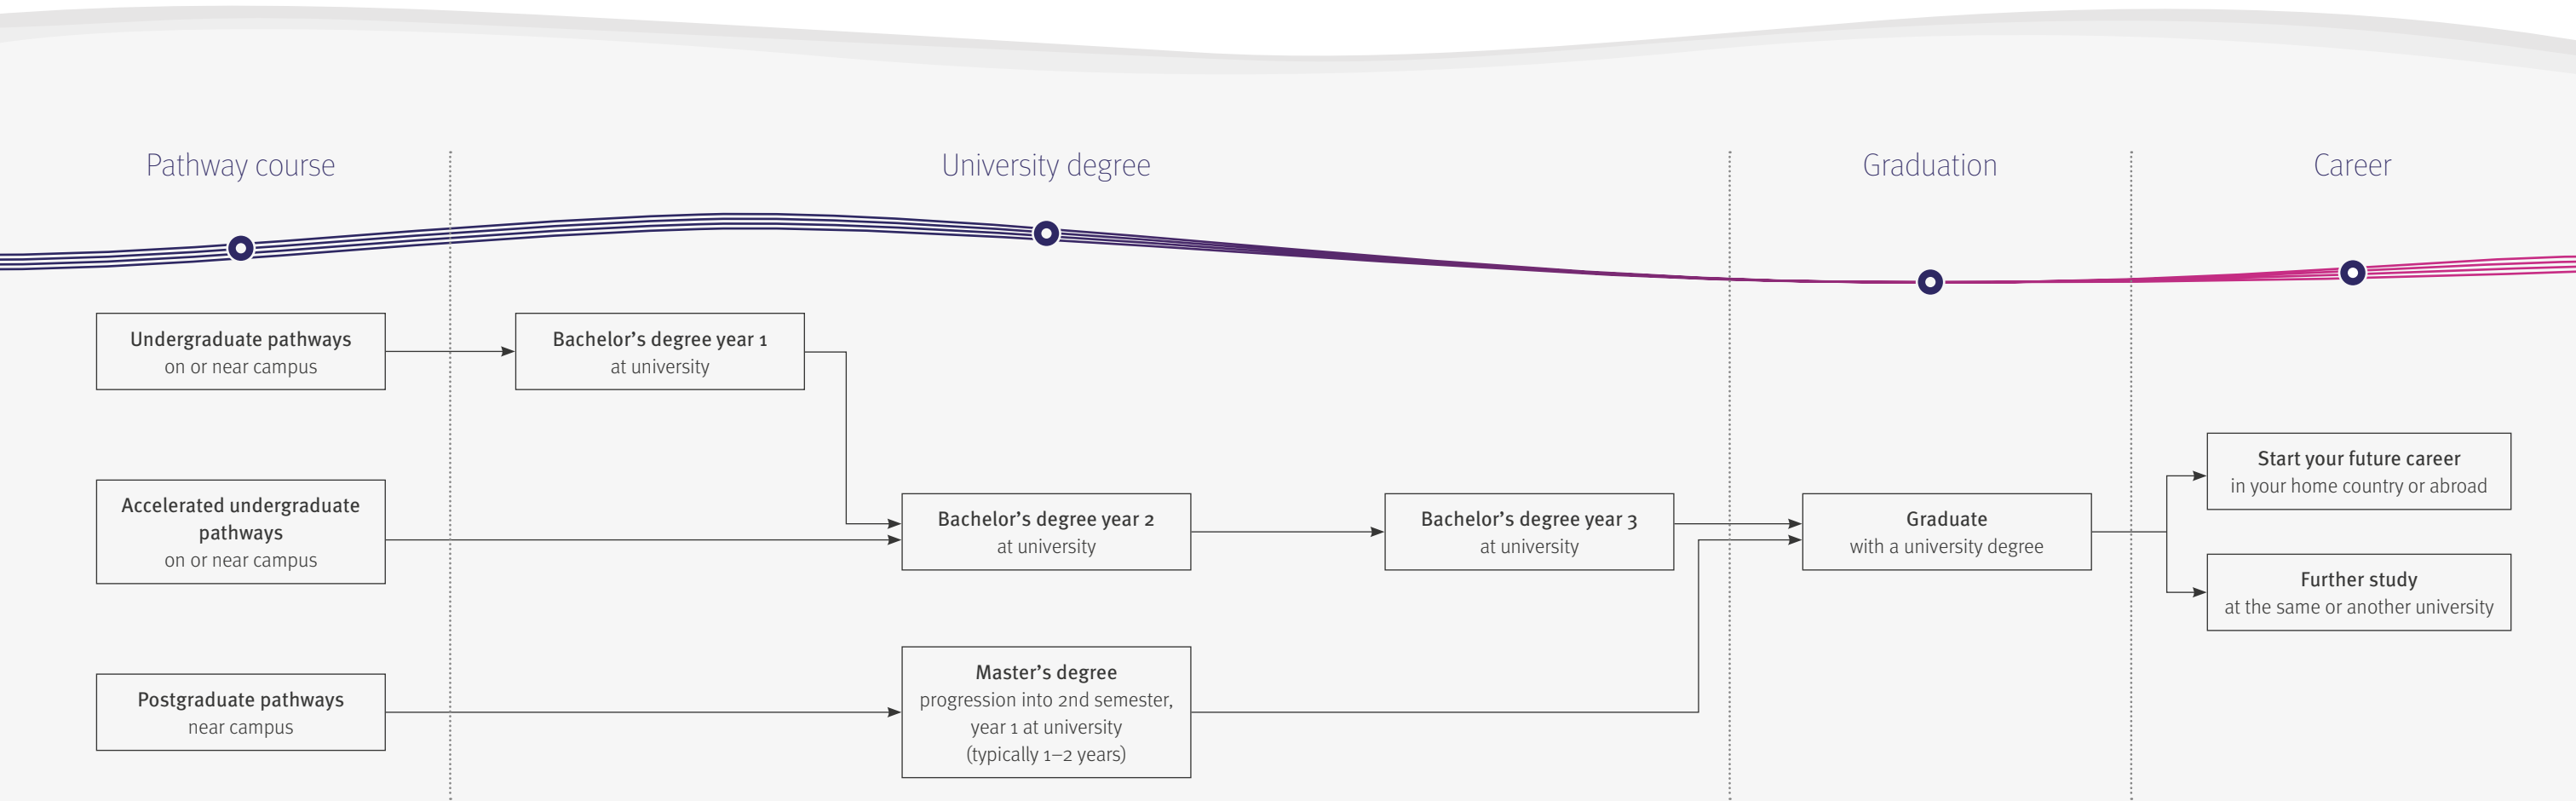

Course length: usually between 3 and 8 months

Study costs*

Pathway course tuition fees are typically between \$11,500 and \$28,500 AUD, depending on the course you choose. You'll also need to consider other costs, including your university tuition fees, general living costs, accommodation, course books and student insurance.

Benefit from a research-intensive atmosphere

University of Adelaide

Go8 member • Research intensive • Coastal city • Low cost of living

› college.adelaide.edu.au

Global research impact

The University of Adelaide is committed to conducting world-class research with global, real-world impact. A member of Australia's prestigious Group of Eight research-intensive universities, you'll benefit from state-of-the-art facilities and the University's cutting-edge work to improve people's lives by addressing the world's most challenging problems.

Career success

As Australia's third oldest university, the University of Adelaide has a well-established reputation for excellence and progressive thinking. This attracts academic staff who are global leaders in their fields, along with the best and brightest students. Adelaide graduates often go on to fulfilling careers in areas such as engineering, health and medicine, life sciences and mining and energy.

Be challenged by leading academics

Welcoming city

Located in South Australia, Adelaide offers a low cost of living, and is a popular destination for international students. It was ranked as one of the world's top 10 most liveable cities by The Economist in 2017, and you can enjoy its many cultural events and green spaces, explore the city centre, or relax on the beach.

"People in Adelaide are so warm and welcoming. Everywhere you go people smile and say 'hi', and everyone wants to be your friend!"

International College

Learn your way

At each Kaplan centre, you'll find teachers who love what they do. You'll learn from people with experience and expertise, helping you follow your path to university.

Custom courses

Our pathway courses are specially designed with international students in mind, and will help prepare you for university. Focusing on your English language, academic skills and subject knowledge, your course will make sure you're ready for degree-level study.

Fantastic facilities

Each of our centres is fully equipped with all the modern facilities you need to get a great education. Along with exceptional teaching equipment, you'll also have access to university facilities and resources such as libraries, IT suites, sports centres and more.

Exceptional teachers

The teaching staff at our centres really are experts in their fields. They are dedicated to giving students like you the best education possible, and have years of experience. When learning from an inspiring teacher, there's no limit to what you can achieve.

A fulfilling experience

A pathway course isn't just about academic learning; it will also help you adjust to life somewhere new. You'll learn more about your host country, its culture and what life is like there. Ultimately, the course will help you get the most out of your time abroad!

Watch our teacher tips video:

[kpln.org/teachers-tips](https://www.kpln.org/teachers-tips)

"I focus on theory because I think it gives us the language to better describe the world around us. Having the right words is so powerful. Once you can express yourself, working through a problem becomes much easier."

Yusuf Dirie

Teacher at Kaplan International College London

Before you arrive

There's a lot to think about before you leave your home country, but don't worry. We'll give you lots of support and advice as you take the first steps on your path to university.

First contact

As soon as you first contact Kaplan, we'll be here to give you step-by-step support, free of charge. We'll give you expert advice on the universities, degrees and pathway courses available to you, and will make sure you start on the right path.

Easy application

Once you've decided on a study option for you, applying is simple, quick and, in many cases, free. We'll lead you through the admissions process, and will review your application and supporting documents to make sure everything is complete.

Find out more about support services:

› kaplanpathways.com/support

Pre-arrival guide

Before you travel abroad, we'll send you helpful pre-arrival information, containing useful tips about your study destination. This is a great way to learn more about the culture in which you'll be studying, and what you can do to prepare.

Student insurance

We'll also advise you on things such as insurance for your time abroad. We can offer a student insurance policy to cover you during your stay in the UK. If you're heading to the US, we will send you details of the university's health plan.

"I'm currently an Admissions Officer at Kaplan, but not that long ago, I was an international student too. I understand how to help students start their path to university abroad because I did it myself."

Ahmed Attalla

Admissions Officer at Kaplan International Pathways

Munsashe from Zimbabwe
On her path to a degree at
Nottingham Trent University

Jitendra from India
On his path to his new home

After you arrive

Arriving in a new country is both exciting and challenging. We'll give you all the support you need as you discover your new home, so you can begin your studies with confidence.

Airport welcome

We can meet you at the airport when you arrive, with a friendly face to greet you from your flight. From the airport, we can take you directly to your new home, and make sure you're comfortable in your accommodation and surroundings.

Support team

Our support staff are here to help; they have years of experience helping international students adapt to life in another country. They'll organise activities during your pathway course, and will be happy and ready to assist you with any problems.

The best start

Your first week is all about settling in, and we'll help you with key things like registering with local health services, opening a bank account and more. There will also be lots of activities for you to get involved in, making it a great time to meet staff, explore the area and get to know other students.

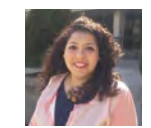

Progression support

When it's time to progress to university, we'll support you through this important step. For example, we'll advise you on renewing or extending your visa for your degree, and can guide you on back-up options in case don't meet the requirements for your first-choice degree.

Find out more about support services:

> kaplanpathways.com/support

"We've brought all these students together not just for the sake of completing a degree, but also for important connections and real-world experience. And it all starts at a simple social event where students might be sharing a meal, playing a game or just remembering each other's names. I look forward to it every semester!"

Vivienne Beshay
Assistant Director, International Pathways at Pace University

Live your way

When you go abroad to study, where you live is so important. Thankfully, you have some great accommodation options with us, offering modern facilities in safe surroundings.

Accommodation designed for you

We offer high-quality housing, so there's no need to look anywhere else! When you study with us, in many cases you are guaranteed accommodation as long as you apply for it in time.

University residences

You'll often be able to stay in a university residence, with modern rooms, social spaces and easy access to your classes. In the UK and Australia, you will usually have your own bedroom, while the tradition in the USA is to share with another student.

Kaplan Living

At some study centres, you can stay in Kaplan's own accommodation, Kaplan Living. You'll enjoy a private bedroom with quiet study space, and social areas with TVs and games. You'll be close to class and live with international students like you.

What is typically included?

- Your own private bedroom (shared in the USA)
- Private or shared bathroom
- Utility bills
- Internet and WiFi
- Private or shared kitchen

In some cases you'll have a meal plan, so there's no need to worry about cooking. In the UK, we will give you a student pack with essential items such as bedding and cooking utensils to get you started. It's one less thing to think about when packing!

Other options

In addition to a Kaplan or university residence, you have other options for where to live. You might want to take advantage of a homestay, so you can live with an English-speaking host and experience traditional life. Whichever kind of accommodation you prefer, we'll help you live your way.

Find out more about accommodation:

➤ kaplanpathways.com/accommodation

"I think the accommodation at Kaplan Living Bournemouth is perfect. There's a big common room with a pool table and TV where you can just hang out and chat with people — it helped me to make new friends."

Student Ambassadors

Studying abroad is a big decision. To help you make up your mind, why not hear what students who have already done it have to say? Our Student Ambassadors produce interesting blogs and videos all about their lives as international students, so you can see exactly what it's like to live and study abroad.

Life as an international student

Kaplan's Student Ambassador programme gives international students just like you the opportunity to share their experiences of life abroad. They regularly share exciting content like pictures, videos and blogs, and offer advice to other students who are thinking about studying in another country. They can give you a clear picture of what life as an international student is really like — after all, who knows better about student life than the people who are living it?

Become an Ambassador

Vlogging and writing articles are great ways to improve your English, and as a Kaplan Student Ambassador, you'll be doing both! It will also look great on your CV, as you'll learn skills like networking, and will receive a certificate to prove your participation. Ambassadors also receive great rewards for taking part in the programme, such as a free travel card, or a short stay at a Kaplan residence. There's even a special bonus gift for overachievers!

To hear from our Student Ambassadors, just visit:

› kpln.org/ambassador

"Being a Student Ambassador for Kaplan has helped me learn how to structure my ideas during my video tours through New York City. I'm improving my English language by sharing information about the place where I live and study."

Malika from Kazakhstan

Kaplan alumni network

If you choose to study with Kaplan, you'll become part of the Kaplan alumni network when you complete your course. You'll be able to engage with your community, make friends and even find job opportunities.

Make an impact

Studying abroad is a life-changing experience. When you start your path to a great degree abroad with Kaplan, you'll grow your confidence, as well as gain independence and be empowered by the freedom you have to make your own choices. As one of our Kaplan alumni you'll be able to make an impact on the people around you by showing your friends, family and local community just how far a degree from a Kaplan partner university can take you! When you become a Kaplan alumni, you'll be joining a network of thousands of former students all around the world and have the opportunity to make professional contacts, take advantage of internship and work experience opportunities, and access lifelong learning.

Alumni network benefits

Being part of this community comes with many exciting benefits, including:

- Global internship opportunities — Kaplan has offices all around the world where you can gain valuable work experience to kick start your career.
- The opportunity to share your experiences and inspire the next generation of international students.
- Access to special LinkedIn groups that allow you to make friends and connections online with other Kaplan alumni.
- Lifelong learning — your path doesn't have to end when you finish your university degree. With Kaplan, you'll have access to lifelong learning opportunities.

"I am so grateful to Kaplan and the University of Westminster for helping me develop a broad range of transferable skills. Studying abroad allowed me to experience a different culture, learn a new language, and most importantly, it broadened my professional network."

Start your path

Are you excited about studying abroad? Starting your path to university is simple: just follow the steps below, and find out what your future could be.

1.

Submit your application form.

We'll guide you through the entire application process, including what documents you'll need to send with or after your application. Just get in touch, or find out more via the link below.

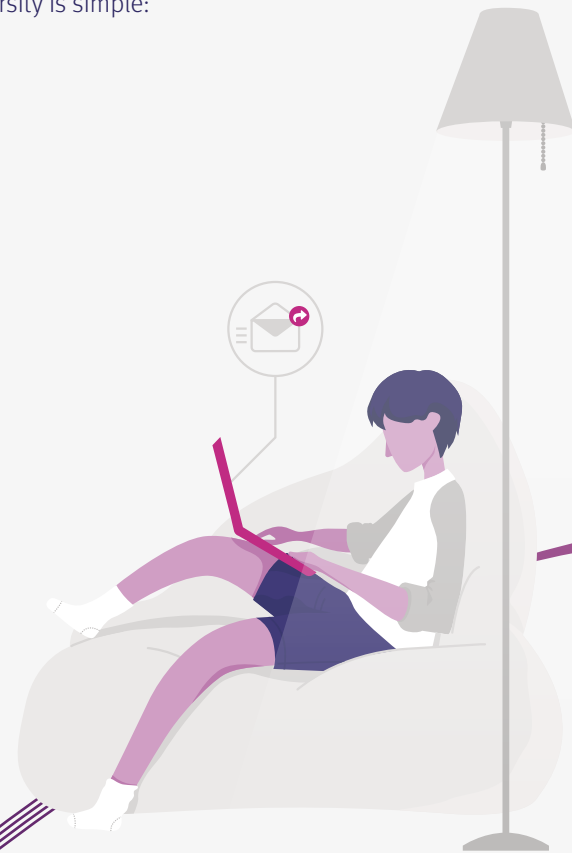

> kaplanpathways.com/how-to-apply

2.

Receive an offer letter.

Once your complete application has been reviewed, you'll receive either an unconditional or conditional offer, or we can explore other study options with you.

3.

Accept your offer.

You'll do this by paying your deposit, or confirming your intention to study, putting you officially on the path to university. We can also confirm your accommodation at this point, so you'll have a safe place to live during your studies.

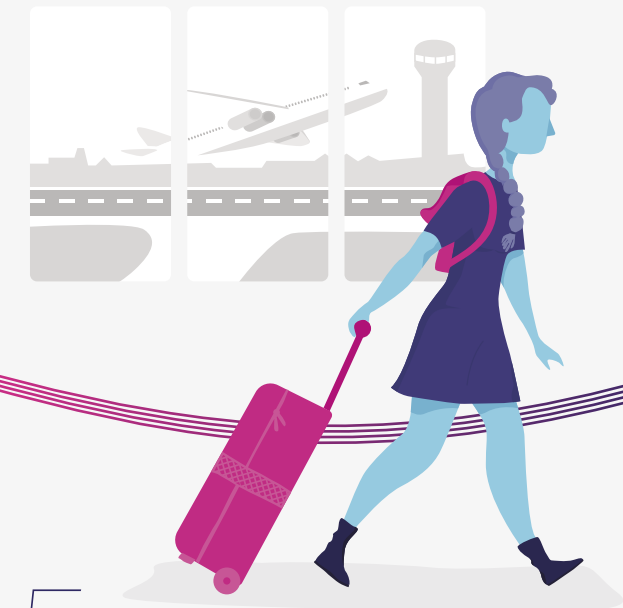

4.

Obtain your student visa.

Wherever you're going to university, you'll need to obtain a student visa. We'll advise you on this important process, and send you the supporting documents you'll need for your visa application.

Departures →

5.

Book your flight and begin your studies.

The most important step – arrive in your destination country and begin your life-changing adventure as an international student!

Glossary

Below are definitions of some of the commonly used words and phrases you'll see in this brochure.

United Kingdom

Association to Advance Collegiate Schools of Business (AACSB)

A business school which is AACSB-accredited has been proven to meet rigorous standards and provide the highest-quality education in business subjects.

Ancient university

The "ancient universities" are a group of 7 institutions in the UK and Ireland, including Oxford and Cambridge, that were founded before the year 1600, making them more than 400 years old!

Research Excellence Framework (REF)

Introduced in 2014, with the next review due in 2021, the REF assesses the quality of research universities in the UK produce, as well as its global impact.

Russell Group

A group of 24 elite public research universities in the UK. Its members are known for producing world-leading research, and attracting the very best students. A degree from a Russell Group university is very attractive to employers.

Campus university

A campus university has all its buildings and facilities on 1 or more self-contained sites, often just outside the city centre. At a campus university, you'll often be able to live, study and socialise all in the same place!

City university

In contrast to a campus university, a city university has its buildings and facilities spread out at different locations across a city. You may have to travel between your classes, so you'll get see more of the city, and feel just like a local!

Red brick university

A type of historic university dating to the 19th century, when buildings were often made with traditional red brick. They are typically highly ranked, with an excellent academic reputation.

Teaching Excellence Framework (TEF)

Introduced by the UK government in 2017, the TEF assesses the standard of teaching and student outcomes at colleges and universities across the country. It awards them Bronze, Silver or the top level: Gold.

University Alliance

University Alliance is a group of 18 careers-focused UK universities, which between them have links to over 16,000 companies. They pride themselves on "educating the workforce of tomorrow".

Young university

A young university is generally under 50 years old. These new institutions often have a reputation for innovation, with a focus on solving modern-day problems and equipping graduates with the skills they need to succeed in today's job market.

United States of America

Campus university

A campus university has all its buildings and facilities on 1 or more self-contained sites. At a campus university, you'll often be able to live, study and socialize all in the same place!

Credit / credits

In the US university system, you need to gain a certain number of academic "credits" to successfully graduate, usually 120–130 for a bachelor's degree and 30–64 for a master's degree.

Fortune 500 companies

Fortune 500 companies feature in Fortune magazine's list of the 500 US corporations with the largest total revenues.

Major

US bachelor's degrees are designed to develop a broad base of knowledge through the study of many subjects in the first 2 years. In the final 2 years, you'll focus on your chosen "major", the subject in which you'll gain your qualification.

Optional Practical Training (OPT)

OPT allows international students with an F-1 visa to stay in the USA to do paid work related to their degree after graduation. You can work for up to 1 year, or 3 years if your degree is in an eligible science, technology, engineering or mathematics (STEM) field.

Private university

Private universities are primarily funded by private donors and operate independently of state government. They tend to be smaller, and may have a particular academic focus, like liberal arts or technology.

Public university

Public universities are primarily funded by the state. They are often much larger than private universities, with bigger class sizes and a wider range of degree options.

Undergraduate transfer

It is common in the USA for undergraduate students to change university after 1 or 2 years and complete their degree at another institution, using the transfer system.

Very high research activity

Within the official classification of US universities, this is the highest level, and is measured by research expenditure and number of research-focused faculty, among other factors.

Australia

Group of Eight (Go8)

The Go8 is a group of Australia's leading research-intensive universities. Go8 members are typically highly ranked, and focused on leading research policy and forming international partnerships.

Innovative Research Universities (IRU)

The IRU is made up of 7 Australian universities who are committed to promoting inclusive learning, research and teaching. Their focus is on enhancing local communities through education and addressing problems through research.

Young university

A young university is generally under 50 years old. These new institutions often have a reputation for innovation, with a focus on solving modern-day problems and equipping graduates with the skills they need to succeed in today's job market.

About Kaplan

Kaplan International Pathways is a leading provider of global education, centred around you. Whoever you are, and wherever you are in the world, our goal is to help you achieve your goal.

Our story

We wouldn't be where we are today if it weren't for a man named Stanley Kaplan. Stanley faced challenges in getting an education in the 1930s. This led him to start a university preparation business, so he could help other students take advantage of the opportunities he couldn't. Stanley's success led to the creation of a whole new industry.

Our people

Sadly, Stanley died in 2009, but his passion for education lives on through our people. Kaplan's staff come from all over the world, and many studied abroad, just like you. They know the unique challenges international students face, and are here to help you get the great education you deserve.

80+
years since Kaplan
was founded
